32674. PRUNUS AVIUM L.**Cherry.**

From Kozlov, Tambov Government, Russia.

"(No. 1017, December 28, 1911.) A variety of cherry originated by Mr. I. V. Mijurin at Kozlov, and named by him *Knyashnaia Severa*, meaning Queen of the North. Fruits large, of pale-red color, and fresh sour-sweet flavor, ripening toward the end of June; possesses excellent shipping and keeping qualities and persists on the trees even when over ripe. Trees of vigorous, straight growth, making but few side branches; trunks smooth and clean. This variety seems to give special satisfaction in dry, cold climates like, for instance, that of Samara Government, Russia, where cherries as a rule grow very poorly. It is considered in Russia to be a decided acquisition to their hardy fruit trees and will no doubt be found of special value in the northern sections of the United States." (*Meyer*.)
